Actually all the scans I sent are xeroxes of the originals. I have the copies displayed on a bulletin board at home but keep the originals in my safe deposit box to prevent loss from accident. I could scan the originals but the information on the copies is unaltered. Nevertheless I'll do it if you would prefer it, just let me know.

In Charles' and Gertrude's attic after Gertrude passed.

Looks like the same handwriting up to 1904. Then looks like someone added info up to the 1940s.

Yes, I think the implication is that in 1904 someone copied all the info from the bible, then others added new information in later years from other sources. Perhaps the list was kept by Charles and Gertrude while the bible was kept by Eben.
